Emma thought that she was finally going to get to start living her life, not that she regretted the last twenty-three years. Her choice to raise her son on her own had been an easy one to make, but as any parent can tell you, having a child means sacrifice. Working two (sometimes three) jobs, shopping thrift stores, and spending weekends clapping at Little League tournaments are all fine memories, but Emma had never really had a life of her own. Wrenching herself out of one bad relationship only to fall into another, romance had not been on her radar for quite a while. Suddenly, it seemed, she looked up and she was forty-something, the parent of an adult, self-sufficient young man away at university, and her life was all her own. Now what? Young enough to start fresh, old enough, hopefully, to know which mistakes

You feel like you've done something before...even as you do it for the very first time. You engage in a conversation and suddenly realize you've spoken those same words before...to the very same person. Yet you're positive it's the first time you've ever met. Déjà vu is the eerie sensation of "remembering" an experience or situation that never occurred. Scientific research into déjà vu has revealed intriguing theories, ranging from short-term memory misfires to neurophysiological disorders. Yet other theories suggest more paranormal causes for déjà vu, such as glimpses into parallel realities. Perhaps the true explanation lies somewhere in between. But déjà vu is only one of the many mysteries of the mind. The Déjà vu Enigma also explores: Memory lapses, missing time, and fugue states. The brain as both receiver and transmitter of reality. Altered states of perception and consciousness, from hallucinations to religious visions. Contagious thought, curses, demonic possession, and mass hysteria. Dream states, lucid dreaming, and precognitive dreams. The Grid and parallel universes as travel routes for mind trips, brain flips, and time slips. Come journey through a world as vast and uncharted as the Cosmos. A journey through the Inner Universe—the human mind.
